WHY CHOOSE QUALITY ALUMINUM PRODUCTS?

We manufacture a full line of aluminum and steel products including aluminum siding, soffit, fascia, trim coil and rain carrying products.

The Clark family has been active in the building products industry for over 65 years. Bud and Bob Clark began their careers with Wolverine Aluminum in the 1950’s, and started Clark Brothers Metal Fabricators in 1971. They began manufacturing residential building products in plants located in Grosse Ile, Michigan and Sarasota, Florida and had distribution centers in Nashville, Jacksonville and Tampa, Florida. Clark Brothers was acquired by World Mark Corporation in 1984 and the Clarks stayed on in management roles until 1990 at which time they resigned, starting Quality Aluminum Products in 1991. With two facilities in Flat Rock and Hastings, Michigan, we have been able to grow and expand in many markets throughout the country with great success.

We currently service the Midwest, from the East coast as far as Idaho, and southern markets like Georgia, Alabama and North Carolina.

Three important factors rank Quality Aluminum as a leader in the building products industry. Most important is our product quality: we manufacture residential and light commercial products to the highest industry standards. Our Home Ventilation Institute certified vented products are key to protecting your most valuable asset...your home. With a large selection of products and our wide range of designer colors, we can assure your home will stand above the rest. Second is our competitive pricing: we strive to sell a high quality product at a fair market value. Last is our exceptional, second to none service. We can tailor our service to meet your specific needs, less than carton quantities, custom bending, special orders and convenient delivery or pick up options.

We take pride in our business are dedicated to our partners and our many loyal distributors who value our strong commitment to the industry. If you demand excellence in product, pricing and service – choose Quality Aluminum Products. Please contact us at 1-800-550-1667.

WHY VENTILATE?

A balanced ventilation system should be a priority. With this system, wind flowing over the roof ridge creates a negative pressure drawing the warm air from the attic. Cool air enters through a properly vented soffit system cooling the roof and exiting through roof, gable or ridge vents. Even on calm days the natural ability of rising warm air maintains a continuous airflow all year with no energy consumption or mechanical parts. Normal building code requirements of ventilation or net free area (NFA) – the total unobstructed area through which air can enter or exhaust with a non-mechanical ventilation system, are as follows: Minimum NFA of one square foot of ventilation for every 150 sq. ft. of attic floor space.

OR

Minimum NFA of one square foot of ventilation for every 300 sq. ft. of attic floor space, if: 50% to 80% of the required ventilation area is provided by vents located in the upper portion of the space to be ventilated at least 3 feet above the eave/soffit vents with the balance of the required ventilation provided by eave or cornice vents. (2000 Michigan Residential Code)

OR

Minimum NFA of one square foot of ventilation for every 300 sq. ft. of attic floor space, when a vapor barrier of 1 perm or less is installed on the warm side of the ceiling.

Everyday activities in your home can cause major problems for your roof and attic. Proper ventilation is the key.

In cold weather, warm moist air can be generated by simple home activities such as showers, laundry and cooking.

In warm weather, heat build up can occur causing premature aging of wood structure and roofing materials. Heat also transfers back into your living space reducing the home’s energy efficiency.
The following matrix shows our certified NFA soffit values placing Quality Aluminum Vented Soffit as a leader in the industry.

<table>

  - **Carton Contents**: 500 Pieces Per Carton, 16 Lbs.

### CPB
- **Conductor Pipe Band**
  - See pg. 32 for Color Legend
  - **Carton Contents**: 100 Pieces Per Carton, 5 Lbs.

### 5HWA
- **Wrap Around Hanger**
  - 130° Low Gloss White
  - 180° High Gloss White
  - 202 Royal Brown
  - **Carton Contents**: 100 Pieces Per Carton, 5 Lbs.

### PIPE CLIPS
- **Pipe Clips**
  - 130° Low Gloss White
  - 180° High Gloss White
  - 202 Royal Brown
  - 204 Grecian Green
  - 228 Hickory
  - 250 Musket Brown
  - 325 Sandstone Beige
  - 360 Terratone
  - 713 Wicker
  - 818 Bronze
  - 820 Cranberry
  - **Carton Contents**: 50 Pieces Per Carton, 4 Lbs.

### 50SM
- **Outside Strip Mitre**
  - See above color list for 5ism
  - **Carton Contents**: 20 Pieces Per Carton, 4 Lbs.

### RDOUT RDOUT275
- **Outlet Tube**
  - 2" X 3"
  - Mill Finish
  - **Carton Contents**: 30 Pieces Per Carton, 3 Lbs.

### OUTLET TUBE
- **2 3/8" Round Outlet Tube**
  - Mill Finish
  - **Carton Contents**: 250 Pieces, 15 Lbs.
### GUTTER ACCESSORIES

#### 5HDHNGER

- **5" Hidden Hangers**
  - Mill Finish
  - CARTON CONTENTS
    - 100 Pieces • 5 Lbs.

#### 5MHOOK

- **M Series Hanger**

Failure of the house to ledger connections accounts for 90% of all deck failures.

Most of those failures are due to lack of proper flashing.

Water intrusion leads to dry rot, connector corrosion, mold and ultimately ledger failure.

The joint between the deck and house should always be protected from water intrusion.

Deck collapses are increasing at an average rate of 20% per year causing injuries or death.

**EVERFLASHING IS THE LAST DECK FLASHING YOU WILL EVER NEED!**

Everflashing was developed to greatly reduce the possibility of water intrusion. It has been ranked #34 in Building Products Magazine’s “Top 100” decking products for 2010. When used as part of a complete deck flashing system, Everflashing’s perimeter flashing is designed to allow decking products to expand and contract, while maintaining a clean, finished perimeter edge. Available in 1 1/2” or 2 1/8” profiles in G185 galvanized for use with treated lumber, or stainless steel for salt water applications.

Contact us for more information on Everflashing when you begin your next deck project.
CUSTOM BENDING

NEED HELP WITH A SPECIAL BENDING PROJECT?

Quality Aluminum Products can make complicated bending projects easy with our CNC Metal Folding System located at our Hastings facility.

It can handle aluminum or galvanized material in a variety of colors and gauges. Highly accurate and repeatable bends are achievable utilizing the system’s automatic back gauging, clamping and bending in lengths up to 12’.

Contact us so we can quote that special project.
FREIGHT, RETURNS, SPECIFICATIONS, & WARRANTY

FREIGHT AND TRANSPORTATION POLICY

Please contact your account manager or outside sales representative for updated freight rates, shipping zones, or other shipping options. Minimum order requirements and freight charges are subject to change.

1. All merchandise will be shipped via Quality Aluminum whenever possible and will be shipped at our discretion.

2. The use of a Common Carrier service or Quality Aluminum will be at the discretion of the shipping department in accordance with sound shipping practices.

3. Orders are due 72 hours prior to the customer’s load date to ensure proper shipping scheduling.

4. Freight charges for all shipments that do not meet the minimum requirements for a prepaid shipment will be added to the invoice as ‘Freight Charges’.

5. A fuel surcharge may be added at our discretion if necessary.

6. Valid back order items (less than 90%) will be shipped prepaid on our truck with the customer’s next order.

RETURN POLICY

Return policy subject to change. Emails will be sent to all customers with an applicable email address on file if a change should occur.

1. No returns will be accepted until a ‘Return Material Authorization’ (RMA) form has been processed and approved through the Sales/Service office.

2. All authorized returns will be subject to a 20% restocking fee and return freight charges where applicable.

3. Special orders, broken cartons, gutter coil spin downs, or damaged materials are not returnable for credit.

4. Credits will not be issued for materials purchased after 30 days from delivery date unless otherwise noted on the delivery paperwork.

5. In order to process your credit, it is necessary to provide your invoice number, sales order number, or purchase order number. Providing the delivery date is also helpful, but not necessary.

SPECIAL ORDERS/CUSTOMER ORDERS

Upcharges will apply.

COATINGS: Dura Coat XT-20 single coat.
Baked on polyester, coated over prime coat.

GLOSS: 8 to 14 on 60 Degree Digital Gloss Meter. ASTM Test D523-80

FLEXIBILITY: No removal of finish with 610 Scotch Tape on @T Blend. ASTM: D-4145-83 PVC. No removal of finish with 610 Scotch Tape on OT Blend. ASTM D-0-4145-83

ADHESION: Excellent. ASTM D 4146

IMPACT: No visual cracking or finish release when subjected to impact in inch pounds equal to one and one half times the metal thickness. ASTM D2794-93.

HUMIDITY RESISTANCE: No loss of gloss, cracking or peeling after 500 hours @ 100% relative humidity. ASTM D 2247-86A.

SALT SPRAY RESISTANCE: No under-cutting of film from edges in excess of 1/16” or face blistering after 1,000 hours @ 5% neutral salt spray. ASTM B 117-85.

EXTERIOR EXPOSURE:

A. FADE: Max. 5 units after 10 years at 45° south Florida Exposure after removal of external deposits. ASTM D 2244-85.

B. CHALK: Max. 6 units rating on all colors with the exception of white within 10 years at 45° south Florida Exposure. ASTM D 659-86.

DRY FILM THICKNESS: .7 - .85 mils PVC 3.5-3.8 mils.

SOLVENT RESISTANCE: 100+ Double MEK rubs.

MATERIALS

All aluminum products are made of 3105 or equivalent aluminum alloy and H-16 or equivalent hardness.

THICKNESS:

.009” Nominal-Economy RF
.012” Nominal-Standard RF
.014” Builder’s Soffit-Builders Drip Edge
.019” Nominal-Siding, Soffit, Trim Coil & Accessories/Standard Drip Edge
.024” Nominal-Siding, Fascia and Trim Coil
.027” Nominal-Gutter Coil
.032” Nominal-Commercial Gutter Coil

(All values for aluminum thickness are nominal values and have a variance of +/- .002)
